4.00 pm  
At IWWA HQ  
Seminar Hall

Er. Pramod Dalvi  
Hon. Secretary  
Mumbai Centre

Er. Maniessa  
Palande  
Chairperson,  
Mumbai Centre

World Water Day, held on 22 March every year since 1993, focuses on the importance of freshwater. World Water Day celebrates water and raises awareness of the 2.2 billion people living without access to safe water. It is about taking action to tackle the global water crisis. A core focus of World Water Day is to support the achievement of Sustainable Development Goal 6: water and sanitation for all by 2030. For this year, 2022, the focus is groundwater, an invisible resource with an impact visible everywhere.

Groundwater is water found underground in aquifers, which are geological formations of rocks, sands and gravels that hold substantial quantities of water. Groundwater feeds springs, rivers, lakes and wetlands, and seeps into oceans. Groundwater is recharged mainly from rain and snowfall infiltrating the ground. Groundwater can be extracted to the surface by pumps and wells.

**IWWA Mumbai Centre has done a lot initiative on this criticality with field implementations of water Conservation.**

IWWA Mumbai Centre shall be celebrating the World Water Day with felicitation of the following Award Winners at IWWA Lucknow Convention-2022

- A. Er. M V Domkondwar,
